" V.C.Holland (May - December)

---

To: The Chairman and Members of the Bakewell Urban District Council.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in submitting my Annual Report on the Health and Sanitary Circumstances of the Bakewell Urban District for the year 1958.

## STATISTICS.

| | |
|---|---|
| Area .. .. .. .. .. .. .. | 3061 acres. |
| Population Census 1931 .. .. .. .. | 3028 |
| Population Census 1951 .. .. .. .. | 3350 |
| Estimated mid-year Home Population 1958 .. | 3550 |
| Rateable Value .. .. .. .. .. | £44,903 |
| Product of Penny Rate .. .. .. .. | £178 |

## VITAL STATISTICS FOR THE YEAR 1958.

BIRTHS:

Births - Total 51.

| | | |
|---|---|---|
| Live Births | Males 24 | Females 27 |
| Legitimate | Males 22 | Females 26 |
| Illegitimate | Males 2 | Females 1 |
| Stillbirths | Males 0 | Females 0 |

| | | |
|---|---|---|
| Crude Birth-rate (per 1,000 pop.) | | = 14.366. |
| Corrected Birth-rate | do | = 15.084. |
| Comparability Factor | | = 1.05. |
| Stillbirth rate | do | = Nil. |

DEATHS.

Deaths - Total 79.
Males 33. Females 46.

| | | |
|---|---|---|
| Crude Death-rate (per 1,000 pop.) | | = 22.253. |
| Corrected Death-rate | do | = 13.129. |
| Comparability Factor | | = 0.59. |

MATERNAL & NEONATAL MORTALITY.

Maternal Mortality (Deaths of infants under 1 year)
Nil.

Neo Natal Mortality (Deaths of infants under 4 weeks)
Nil.

CANCER DEATH RATE.

Cancer Death Rate.....2.53 (per 1,000 pop.)

## VITAL STATISTICS.

The Birth-rate is almost double that of last year, and is slightly lower than that of England and Wales.

The Death-rate is in a similar proportion, i.e. not quite double, but is higher than that of the country generally. This I feel sure is due to the larger number of older people in a small community.

CANCER.

The cancer death rate has increased. This is partly due to old people coming to live in Bakewell. The relationship between excessive cigarette smoking, (by that I mean 20 a day,) and lung cancer cannot be denied. It is for the younger generation to take notice of this fact.
One Male died from Lung Cancer.

## COMPARABLE VITAL STATISTICS.

The average age at death of Men was ...73.13.....Women...76.4.

| Of the 33 Male Deaths. | Of the 46 Female Deaths. |
|---|---|
| 2 were under 50 years. | All were over 50 years. |
| 31 were over 65 years. | 43 were over 60 years. |
| 17 were over 75 years. | 28 were over 70 years. |
| 13 were over 80 years. | 26 were over 80 years. |
| 1 was over 90 years. | 8 were over 90 years. |
| 1 was over 100 years. | |

## COMPARABLE VITAL STATISTICS 1957 - 1958.

| | England and Wales 1957. | England and Wales 1958. | Bakewell 1957. | U.D.C. 1958. |
|---|---|---|---|---|
| Live Birth Rate (per 1,000 total population. | 16.1 | 16.4 | 7.6 | 15.08 |
| Death Rate (per 1,000 population) | 11.5 | 11.7 | 14.36 | 13.12 |
| Infant Mortality. (Deaths under 1 yr. per 1,000 live births) | 23.0 | 22.6 | Nil | Nil |
| Neo Natal Mortality. (Deaths under 4 weeks per 1,000 live births) | 16.5 | 16.2 | Nil | Nil |

Registrar General's Classification of Deaths for Bakewell. Urban District, 1958.

| Code No. | | Male | Female | Total. |
|---|---|---|---|---|
| 1. | Tuberculosis, respiratory .. .. | 0 | 0 - | 0 |

## INFECTIOUS DISEASES.

The following Infectious Diseases occurred during the year:-

| | Male. | Female. | Total. |
|---|---|---|---|
| Measles... ... ... ... | 15 | 7 | 22 |
| Pneumonia. ... ... ... | 1 | 1 | 2 |
| Erysipelas ... ... ... | - | 1 | 1 |
| Acute Poliomyelitis. ... (non-paralytic) | - | 2 | 2 |
| Total: | 16 | 11 | 27 |

Both cases of Poliomyelitis recovered completely. Diagnosis is confirmed by examination of virus in the stools, often weeks later.

The Chest Clinic at the Whitworth Hospital with good X-ray facilities is greatly appreciated by local General Practitioners and patients, and is being more extensively used. The Tuberculosis Register has been completely revised, whilst the policy has reverted back to the keeping of the Register by local M.O.H.'s which for a time was discontinued. I personally welcome this change as the more efficient procedure. The number of cases on the Register is nine, as follows:-

| | Males. | Females. | Total. |
|---|---|---|---|
| Pulmonary... ... ... | 3 | 4 | 7 |
| Non Pulmonary ... ... | 2 | - | 2 |
| | | | 9 |

## VACCINATION AND IMMUNISATION.

There is a tendency for fewer babies to be vaccinated against Smallpox, which is to be deplored. On the other hand the innoculations against Poliomyelitis has increased, and been highly successful. The co-operation of the public is desired in this respect, in order to eradicate this dread disease which cripples so many lives.

At the same time parents must not forget the need still exists just as much to have their children immunized against Diphtheria. Whooping Cough vaccine is now combined with this injection. Forty-eight children were immunized during the year against Diphtheria, thirty-seven being under one year, and eleven from one to four years.

## GENERAL PROVISION FOR HEALTH SERVICES FOR THE AREA.

Ambulance facilities are provided by the Derbyshire County Council. The local Ambulance Station is a great convenience for the people of Bakewell. The Telephone number is Bakewell 393.

District Nursing in the home and Midwifery Nursing Services are administered by the Derbyshire County Council.

## LABORATORY FACILITIES.

Pathological specimens are sent to the Public Health Laboratory, 121a Oswaston Road, Derby, Telephone Derby 45597, where Bacteriological investigations are also carried out.

Chemical analysis is carried out in the County Analyst's Department which has now been transferred to the County Offices, Matlock, Telephone Matlock 3411.

CLINICS.

A Child Welfare Clinic is held in the Town Hall, on the second and fourth Wednesday, time 1-30 pm. to 4 pm.

WELFARE FOODS.

These are available every Monday 9-15 am. to 12-45 pm. and 2 pm. to 5 pm.

HOSPITALS.

Newholme Hospital, Bakewell, 76 beds, and The Bakewell Cottage Hospital 13 beds, are administered by the Sheffield Regional Hospital Board.

WELFARE SERVICES.

There is part three Residential accommodation of approximately 60 beds at Newholme Hospital. This being a "Joint User" Institution.

The County Welfare Committee also administer The Firs, Bakewell, which offers Residential accommodation for Displaced Persons, that is families rendered homeless as a result of eviction following the non-payment of rent, or anti social behaviour. The Firs was the former Isolation Hospital, which after adaptation provides separate accommodation for fifteen families, and the duration of residence of each family is limited to three months, as it is essential that there should be a steady turn over of families.

Mothers and children only are admitted to The Firs, not the Fathers.

During their stay the families are constantly encouraged and assisted to seek alternative accommodation and to this end representations on their behalf are made to appropriate housing authorities. During 1958 the largest number accommodated at any time was 15 mothers and 46 children; the lowest 4 mothers and 12 children; the average being 9 mothers and 26 children.

The Matron of The Firs has devoted considerable time to advising and training mothers in domestic matters, in needlework, child care, household management. It is thought that this element of re-habilitation teaches mothers the advantage to be gained from a balanced home life. After discharge the Matron and her husband, who is the Warden, follow up many of the cases whom it is thought would benefit by their counsel, and so helped to make a fresh start.

This patient and rewarding Welfare Work is seen very little by the General Public.

## YEARLY STATISTICS OF HOSPITALS WITHIN BAKEWELL URBAN DISTRICT - 1958.

### Bakewell War Memorial Cottage Hospital.

(A General Practitioner Hospital of 13 Beds)

| | |
|---|---|
| Patients in hospital at 1st January, 1958... ... ... | 12 |
| Admissions during the year ... ... ... . ... ... | 132 |
| Discharges during the year ... ... ... . ... ... | 91 |
| Deaths during the year ... ... ... ... . ... ... | 16 |
| Patients remaining in Hospital at 31st December 1958.. | 12 |

Of the 17 deaths, 12 were male and 5 female. 6 only were Bakewell residents, the other 11 came from outside the Bakewell Urban District.

| | |
|---|---|
| Average age at death of males.. ... ... ... ... ... ... | 67.08 years. |
| Average age at death of females ... ... ... ... ... ... | 70.40 years. |

---

### Newholme Hospital, Bakewell.

(A Chronic Sick Hospital of 76 Beds.)

| | |
|---|---|
| Patients in hospital at 1st. January, 1958 .. ... ... | 69 |
| Admissions during the year ... ... ... ... ... | 132 |
| Discharges during the year... ... ... ... ... ... | 46 |
| Deaths during the year ... ... ... ... ... ... ... | 87 |
| Patients remaining in hospital at 31st December, 1958.. | 68 |

Of the 87 deaths, 41 were male, and 46 female.

| | |
|---|---|
| Average age at death of males ... ... ... ... ... | 76.97 years. |
| Average age at death of females ... ... ... ... ... | 81.30 years. |

| 36. | Homicide and operations of war... | - | - | 0 |
| | TOTALS: | 41 | 86 | 47 |

HOUSING.

The Council's programme to build twelve bungalows for Old People is proceeding. The number of houses erected by Private Enterprise during 1958 was 19. By Local Authority Nil.

There is still a long waiting list for houses. Good housing is essential to the Public Health. People now expect increased amenities, such as bathrooms, and an indoor lavatory. Good cooking facilities, accommodation for the proper storage of food, good lighting and ventilation. An adequate fuel storage. Yet many houses do not as yet possess these amenities.

Landlords or Owner Occupiers should avail themselves of the facilities provided by the Ministry of Housing and Local Government, and submit plans for the improvement of their houses with the help of a Standard Grant or a Discretionary Grant, which offers considerable financial assistance. There are still many houses in this town which need improving. The census of 1951 showed that in the Bakewell Urban District the percentage of bathrooms was 69%, without a bathroom or sharing with another householder 31% In particular I again mention Rock Terrace, which could be greatly improved by the owners acquiring land at the rear, and so provide indoor lavatory and bathroom, proper kitchen and food store, all of which are lacking.

With regard to New Houses , I am sure if the housewife realized that in many cases the plan on paper submitted by the private architect - which is often for her difficult to visialize, did not in fact include a well lighted and adequately ventilated foodstore, she would ask her husband to revise the plans. Yet it is a fact that the majority of plans being submitted by architects which come before your Council merely provide a small ventilated food cupboard in the kitchen for the storage of perishable food. It may be argued that a refrigerator is also being provided, yet in my own experience I have found that when the house is sold and the refrigerator is taken away, the new owner is not always able to afford a refrigerator at present prices.

This emphasizes the need, and in fact I submit the necessity forthe Ministry of Housing to adopt a higher standard with regard to the Building Byelaws. A Byelaw should be included which requires a separate larder in each new house. The present Building Byelaws do not insist there shall be a foodstore at all. By these means cases of Food Poisoning may be prevented.

I consider Increased Housing Accommodation to be the most important Public Health requirement at the present time.

WATER.

The supply has been adequate and the quality good during the year. A scheme is in being by which the quantity of water from the source will be greatly improved by the laying of a new portion of concrete lined main, 1,200 yards in length, which will improve the gravitational supply.

Generally speaking the average Pallenge supply is approximately 120,000 - 130,000 gallons per day, which together with the maximum amount of Derwent Valley water for which the Council pay, namely 75,000 gallons per day, allows 200,000 gallons per day, which is adequate for a population of 5,000 persons at 40 gallons per head per day.

At the present time however, the Council only take about half of their entitlement of the Derwent Valley Water from the aquaduct, with a population of 3,550. Aldern Way Estate has been served by a new 3" main.

SEWAGE AND SEWAGE DISPOSAL WORKS.

No new additional works have yet been begun, but the Council through their Consulting Engineer are considering the problem.

REFUSE DISPOSAL.

Rodent control is constantly required at the tip, while Controlled Tipping is the method of disposal.
The Litter Act (1958) came into force in August, 1958.

FOOD.

I am pleased to report that no cases of Food Poisoning were notified during the year, but wish to emphasize once again the importance of the Food Hygiene Regulations. It is a statutory requirement that adequate arrangements by provided in all food shops and catering establishments for the use of staff an separate hand washing facilities.

MILK. Further routine samples should be taken.

SLAUGHTERHOUSES.

The four Slaughterhouses in Bakewell have been regularly inspected. A far greater standard of hygiene is required in some instances. Specific improvements as required by the Slaughterhouses Act 1958 will have to be carried out by the owners and occupiers. Generally speaking the best use is made of unsatisfactory premises which have not been built for the purpose.

MEAT INSPECTION. The Meat Inspector's statistical table is as below:-

| | Cattle. ex. cows. | Cows. | Calves. | Sheep & Lambs. | Pigs. | Horses. |
|---|---|---|---|---|---|---|
| Number inspected. | 560 | 435 | 56 | 2735 | 1805 | - |
| All diseases except Tuberculosis and Cysticeri. Whole carcases condemned. | - | - | 3 | 7 | - | - |
| Carcases of which some part or organ was condemned. | 74 | 110 | 4 | 62 | 18 | - |
| Percentage of the number inspected affected with disease other than Tuberculosis & Cysticeri. | 13.2 | 25.2 | 12.5 | 2.52 | .99 | - |
| Tuberculosis only. Whole carcases condemned. | 2 | 1 | - | - | - | - |
| Carcases of which some part or organ was condemned. | 86 | 98 | - | - | 30 | - |
| Percentage of the number inspected affected with Tuberculosis. | 15.17 | 22.7 | - | - | 1.66 | - |
| Cysticercosis. Carcases of which some part or organ was condemned. | - | - | - | - | - | - |
| Carcases submitted to treatment by refrigeration. | - | - | - | - | - | - |
| Generalised and totally condemned. | - | - | - | - | - | - |

THE MARKET. Is scheduled to become completely attested in 1960.

FACTORIES ACTS 1937 & 1948.

The following are extracted from Form 572 (Revised.)

1. Inspections. For purposes of provisions as to health (including made by Public Health Inspectors.

| Premises. (1) | M/c line No.(2) | Number on Register (3) | Number of Inspections.(4) | Number of Written Notices (5) | Occupiers Prosecuted. | M/C line No. (7) |
|---|---|---|---|---|---|---|
| (i) Factories in which Sections 1,2,3,4,&6 are to be enforced by Local Authorities. | 1 | 5 | 43 | - | - | 1 |
| (ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority. | 2 | 23 | 81 | - | - | 2 |
| (iii) Other Premises in which Section 7 is enforced by the Local Authority (excluding out-workers' premises) | 3 | 15 | 79 | - | - | 3 |
| TOTAL..... | | 43 | 203 | - | - | |

2. Cases in which defects were found. NIL.

3. Outwork. Nil.

LEGISLATION AND REGULATIONS WHICH CAME INTO FORCE DURING THE YEAR.

The Slaughter of Animals, (prevention of Cruelty) Regulations, 1958.

The Slaughterhouses (Hygiene) Regulations 1958.

The Slaughter of Pigs (Anaesthesia) Regulations, 1958.

The Slaughter of Animals (Electric Stunning) Regulations (1958)

The Slaughterhouses (Meat Inspection Grant) Regulations 1958.

The Alkali etc. & Works Order, 1958.

The Dark Smoke (permitted periods) Regulations 1958.

The Public Health Inspector's Report is attached.

My thanks are due to the Council, their Officers, and staff for their continued co-operation in the promotion of the Public Health.

I am,

Your obedient Servant,

Charles W. Evans.

30th. September, 1959. Medical Officer of Health.

## Annual Report of Public Health Inspector for the year 1958.

### Bakewell Urban District.

Inspector : T.R.Sambrook.
